ABOUT ME

I am a dedicated and driven university graduate with a strong commitment to lifelong learning and professional development. Passionate about continuous growth, I actively seek opportunities to enhance my skills and knowledge to stay ahead in an ever-evolving professional landscape. Guided by the principles of integrity and professionalism, I adhere to the highest ethical standards, which I consider foundational to delivering quality service and contributing meaningfully to the success of the organizations I seek to work with. My growing proficiency in accounting, along with a comprehensive understanding of the pillars upheld by the South African Institute of Chartered Accountants (SAICA), enables me to bring a well-rounded approach to problem-solving, strategic thinking, and effective decision-making. I am eager to apply my education and values to make a significant impact in the accounting field.

EDUCATION

Postgraduate Diploma in Applied Accounting Science 2025 - Current University of South Africa | UNISA

For the purpose of being certified as 'Competent in the Theory of Accountancy,' as stated by the University of South Africa, this degree is accredited by the South African Institute of Chartered Accountants to enable students to partake in SAICA's IAC examinations. It is known as CTA 2 and PGDAAS.

Bcompt Financial Accounting (Completed) 2022 - 2024 University of South Africa | UNISA

Obtained graduate-level knowledge in the fields of financial accounting, management accounting, auditing, and taxation, accompanied by specific skills, values, attitudes, and ethics. This degree serves as a foundation for a more advanced career as a professional accountant.

PROSPECTS

I am committed to qualifying as a Chartered Accountant. My goal is to complete my current qualification in 2025 and sit for SAICA's IAC examinations in 2026, after which I will commence a training contract. In parallel with my qualification, I will continue to enhance my understanding and involvement in technology that is transforming the world and the business and accounting landscape. Embracing IT and adapting to this ever-evolving environment is crucial for staying competitive, fostering innovation, and ensuring long-term success in an increasingly digital and interconnected global market.
